

Robert Biscoe

Senior Architect

Principal and Design Director

Professional Qualifications

- Professional Qualifications
- Bachelor of Architecture 1987
- B. Sc. 1979 Australian Environmental Studies
- Associate, Royal Australian Institute of Architects

Professional Experience

Robert's early studies in Environmental Science provide direction for an architectural consideration of buildings as contextual elements which integrate external and internal environments. In Robert's work he prioritises the development of design strategies that maximise the efficient use of resources within the framework of appropriate climatic responses to the design brief.

Professional Positions Held

RAIA Queensland Chapter Awards Jury
